Children, Schools, Families, some shown below, need your immediate help in the Colombian coastal barrios and Bogotá vicinities. Living quarters are dirt floors, thatched roofs, severe malnutrition, little schooling, distended stomachs, hair falling, spastic neurological conditions.

They lack prenatal and health care. The two families and the school here need additional sponsoring.

Children near Bogotá. They live by the roadside with their father. Visits by Nubia de Rojas give them encouragement, a bed, chairs, cash for food and carousel ride.

They talk with Nubia.

Nubia visits 64 hungry one room school children, with sandwiches. Our new school project. 3 great volunteer teachers.

One-room elementary classroom. We purchased them doors, locks and plan for electricity, toilets, fix desks, and clothes for all the children.

Little girl receiving new doll.

Groceries for this family.

New family receiving immediate help from SGCF. Gas stove, kitchen items, chairs, bed, food.
