

Saint Germain's Children Foundation

Summary: El Dorado school built an extra classroom for the younger ones increasing attendees to 140. New tables and chairs courtesy Don Carlos Rojas. This has been through your donations and with the stupendous help of Nubia's family. This commune school was one room with nothing but bare walls, undernourished kids in March 2004 when we found them! You can see Jorge and Liliana are pretty popular when they visit, play and bring a super lunch. Photos©: Jeffrey, our associate, an American living in Colombia. You may distribute this flyer to your friends and acquaintances.
Copies available, write or call us. Thank you. January 2007.
